

Red Pepper Client Success

## Ongoing Qualtrics Program Support — Monthly Office Hours

### KEEP MOVING IN THE RIGHT DIRECTION

You've finished your Qualtrics Implementation and collected some key insights into your customers and employees, but **you're starting to realize that you've only just begun down this path**. Accomplishing your business objectives and possibilities with Qualtrics is a journey that demands commitment. Let Red Pepper be your guide.

We can help you troubleshoot and plan your program, customize, automate, and extend the XM platform, and help with staff training and workload. Like an oil change for a high-performance car, think of Red Pepper as regular maintenance for your Qualtrics solutions.

One of the best options for Qualtrics clients is Red Pepper's **Monthly Office Hours**, which keeps us right by your side as you embark on your next XM project.

**Monthly Office Hours** includes access to the Red Pepper team via twice-monthly video calls with a Red Pepper Tech Consultant

**\$3,600 Annually**

Meetings with Tech Consultant are scheduled in advance, typically on the same day each month. Screen sharing and consultation available in each call.

- Annual agreement, billed upfront
- Automatic renewal unless canceled
- Best if used for monthly guidance and training
